Dear Mr. Rust:

The Design Advocacy Group of Philadelphia is pleased to offer its endorsement of the recommendations contained in "If We Fix It, They Will Come". Karen Black presented the findings and recommendations contained in this outstanding and sorely-needed report to our monthly meeting in May, and I am pleased to advise you that our Steering Committee was unanimous in offering to be listed among your endorsing organizations.

I look forward to future opportunities for our two organizations to work together.

Sincerely,

THE DESIGN ADVOCACY GROUP OF PHILADELPHIA
